SEMINAR SERIES - MEET THE EXPERTS

"Chemistry, Manufacture and Control (CMC) - How to avoid the common mistakes"

November 8th 2018 from 2:00 - 4:30 pm at DTU Science Park, Hørsholm, Denmark

Clinical and Nonclinical Experts GmbH

Clinical and Nonclinical Experts welcomes you to the third of our seminar series in the Copenhagen Area where our international experts share insights from years of experience - to help you save time and money in drug development.

Target audience: Decision Makers • Managers • Scientists • Investors
- in pharma and biotech product development

Dr. Sven Jacobsson is our CMC expert with more than 30 years experience in analytical and pharmaceutical R&D. Dr. Jacobsson's experience spans through New Chemical Entities, New Biological Entities, Cell Therapy and Generics development.

In this seminar, Dr. Jacobsson will share his experience and the do's and don'ts in CMC, based on real life examples. Considering some of the important CMC issues early on in the development process will help you streamline your process and, in the end, save time and money. We will include a Q&A session where you can get advise on the CMC challenges you are facing.
